LinkMisr

LinkMisr is a leading industrial company specialized in manufacturing shelving and racking systems. We serve Egyptian, Arabian and African markets. The products are manufactured under license from Link 51 (UK).

LinkMisr was established in Egypt in 1993 in the new industrial city of Tenth of Ramadan, located 35 Km from Cairo. The product range includes shelving systems for various applications to meet different customer requirements: Light load shelves, medium load shelves and heavy load racks. Our clients include pharmaceutical companies, hospitals, logistics, automotive companies, hotels, clubs, readymade garments companies, petroleum companies, banks, the food industry and supermarkets, among many other industrial and business sectors. LinkMisr provides complete solutions including design, supply, installation, and after sales services with the help of a highly qualified team trained by our licensors Link 51 (UK).

Regular testing is carried out on our shelves inside the factory to ensure that our products are compliant with the relevant Egyptian and British standards.

The Art of Storage System

WISK RACK

Wide Aisle Pallet Racking System

TOYOTA

Total Area of 25000 m²
Sadat City, Egypt.

By LinkMisr

“Accessibility”

Smart racking solutions that allows for easy access, reachable for humans, and accommodate different and irregular automotive spare parts. With a range of clever and integrated accessories, such dividers and carton boxes, stored items are highly accessible.

— LinkMisr

TOYOTA

The Largest PDC

LinkMisr has successfully landed Toyota Egypt's largest PDC. Part Distribution Center service center (PDC). The storing system used within this project comprised of several solutions to cater to the all of Toyota Egypt's needs.

For easy access, some of these pallets were situated at heights reachable for humans, while the higher levels were allocated for the storage of larger items accessible via forklifts.

Medium Span Shelving systems were designated for regularly shaped items of medium and small package sizes. For optimum capacity and usage, the system was two-tiered and designed and built with a range of clever and integrated accessories.

The end result: is to deliver an integrated effort with world-class shelving solutions to a satisfied client.

Cutting Edge Storage System Design.

DHL

Total Area of 11,000 m²
10th of Ramadan City, Egypt

By LinkMisr

“Utilization”

An innovative storage design concept revolving around optimized utilization and seamless operation. Especially beneficial in DHL's case to guarantee effective and efficient work flow given rapid stock turnover.

DHL

More Flexibility and Greater Utilization

The long and established partnership between LinkMisr and DHL spans over 12 years. DHL's latest warehouse gave room for growth, more flexibility and greater utilization. To accommodate each of DHL's needs and requirements, LinkMisr conceptualized and executed a shelving framework that constitutes of four product variations. Together, Two-tier, Euro Shelving, Wide Aisle Pallet Racking, Drive-in Pallet Racking, and Satellite Storage system, provide a comprehensive, all embracing storage solution. Upon the successful installation of the above mentioned products.

Where Quality Meets Innovation.

JUHAYNA

6th of October, EGYPT.

By LinkMisr

“Strength”

Effectively strong and heavy-duty, LinkMisr System provided a high density and extremely space-efficient bulk storage system to overcome increasing capacity and prove extreme durability.

— LinkMisr

JUHAYNA

Partnership Success

The partnership between Juhayna and LinkMisr goes back 12 years. Such a varied production line was developed and expanded over the years. Warehousing and capacity needs also expanded across the years accordingly. And so, Juhayna required the expertise and solutions of LinkMisr to accommodate the ever-expanding storage requirements.

LinkMisr introduced the Wide Aisle Pallet Racking, Drive in, Satellite & Live storage system which was ideal for warehouse applications in the food and drink industries.

No Other Storage Offers You More.

CARREFOUR

Egypt, Saudi Arabia, UAE, Oman
and Lebanon

By LinkMisr

“Appealing”

Accommodating yet aesthetically appealing, storage applications set up at Carrefour allows for creative product displays, hence creating an attractive shopping experience.
